Marker disappears when callout is expanded. Clicking anywhere outside the callout collapses the callout.

Student Default + Callout expanded

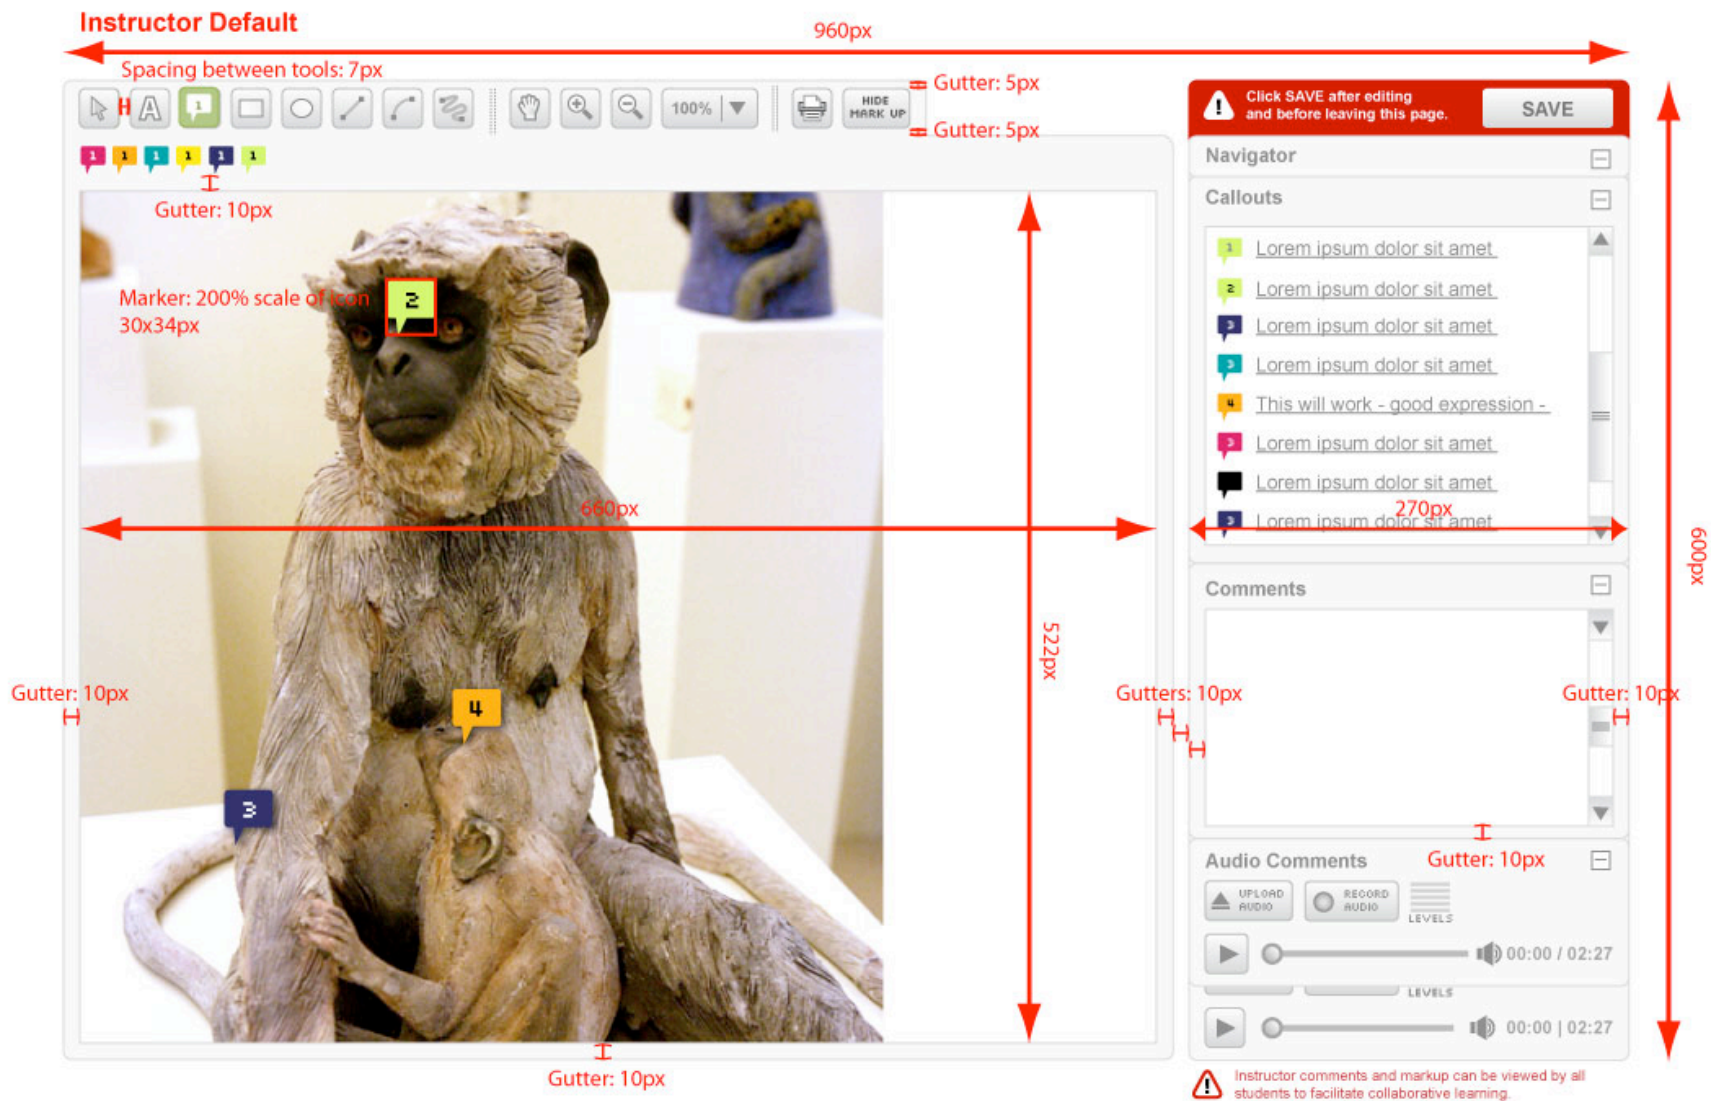

The screenshot displays the Markup Tool interface. The main workspace shows a photograph of a taxidermy specimen, a pronghorn head, on a white pedestal. A callout box is expanded over the specimen's face, containing the text: "3: This will work - good expression - there could have been a little more reflected light in the shadows- to add this you can have someone hold up a piece of white foamcore or paper just away from the head to bounce the reflected light back in. Good expression and pose!". The callout has a white background, a gradient border, and a drop shadow. A small red square marker with the number '3' is positioned above the callout. The interface includes a toolbar at the top with icons for navigation, zoom, and a 'HIDE MARK UP' button. On the right side, there is a 'Navigator' panel showing a thumbnail of the specimen with a red bounding box around the head. Below the Navigator are panels for 'Callouts' (listing three callouts with their respective markers), 'Comments' (containing a block of Lorem Ipsum text), and 'Audio Comments' (with a play button and a progress bar showing 00:00 | 02:27).
